Re: Commission Regulation 514, Moose

Dear Commissioners and Director Jenne:

On behalf of Safari Club International, I would like to thank you for the opportunity to comment on the proposed Commission Regulation 514, Moose.

The proposed Commission Regulation 514, Moose, is necessary to establish definitions for antlered and antlerless moose, eligibility requirements for a moose tag and fees for both resident and non-resident antlered and antlerless moose hunts and to establish requirements for maintaining physical characteristics of the harvested moose. SCI commends and supports the Commission and the Department regarding the establishment of these provisions and the very unique opportunity for a moose season. The proposed season is yet another conservation success story.

SCI believes that sound science-based conservation involving hunting as the primary management tool, while maximizing opportunities for all huntable species, such as moose, is necessary to the long-term health of wildlife. Hunters have long paid the way for conservation, both game and non-game wildlife, and maximizing opportunity for hunting is also key to long-term funding for all conservation. Hunting benefits wildlife conservation.

Thank you again for the opportunity to comment on the proposed Commission Regulation 514, Moose. SCI is dedicated to protecting the freedom to hunt and we appreciate the continued partnership with the Department and the Commission. SCI is always first for hunters.

Sincerely,

W. Laird Hamberlin
CEO
Safari Club International
